

Product Roadmaps

Workbook

Exercise #1: Choose Your Product (5 minutes)

Product Name	<i>If it's a new product idea, add a placeholder name</i>
What does it do?	<i>Briefly describe what value your product provides</i>
Where do you use it?	<i>Through what channels is it/will it be available ?</i>

Exercise #2: Define your main components (1 hour)

Part A: Select an initial format for your product roadmap based on 1) the tool you prefer to work with & 2) what is used in your company.

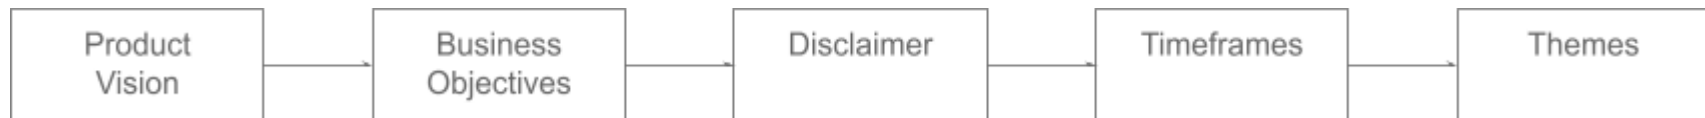

Example Format	Selection
Document e.g. MS Word	
Website e.g. www.gov.uk/roadmap	
Trello	
Slides e.g. MS Powerpoint	
Spreadsheet	
Other	

Part B: How will you incorporate main components into your roadmap?

1. Reflect on how you'd like to guide first-time readers through your main components & draw out the user flow below.

Example User Flow

A) For Key Stakeholders

Your User Flow

Part C. Build out your roadmap template with main components incorporated.

Exercise #3: Define your supporting components (1 hour)

1. Consider how you'd like to guide first-time readers through your supporting components & draw out the user flow below.

Example User Flow

A) For Key Stakeholders

Your User Flow

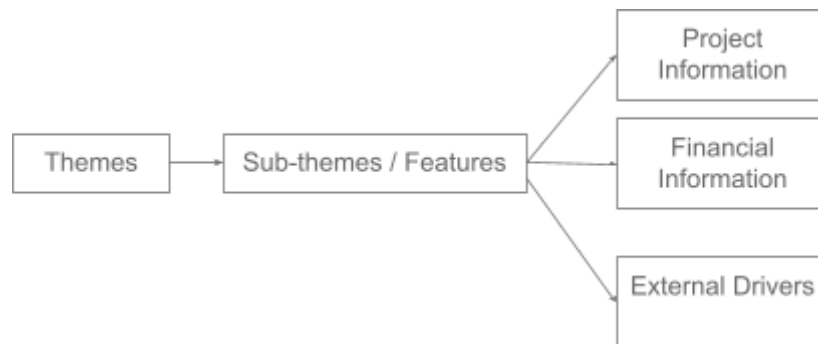

2. Build out your roadmap template with supporting components incorporated.

Exercise #4: Define your additional information (1 hour)

1. Reflect on how you'd like to guide first-time readers through your additional information & draw out the user flow below.

Example User Flow

A) For Key Stakeholders

Your User Flow

2. Build out your roadmap template with additional information incorporated.

Exercise #5: What is your product's lifecycle stage? (5 minutes)

To determine your product's lifecycle stage:

A) consider the following questions:

a) Have you achieved product-market fit? No – > Introduction

Are you focused on:

b) Building awareness? —> Introduction

c) Scaling growth? —> Growth

d) Sustaining growth? —> Maturity

e) Pivoting into new areas? —> Decline

B) What is the lifecycle stage for your product?

Exercise #6: Build your product’s Business Model Canvas (1 hour)

Key Partners:	Key Activities:	Value Proposition:	Customer Relationship:	Customer Segments:
	Key Resources:		Channels:	
	T			
Cost Structure:		Revenue Streams:		

Exercise #7: Identify your stakeholders (30 minutes)

To identify your stakeholders for a particular initiative consider the following questions:

- 1. Whose workflows are impacted by this initiative?
- 2. Whose approvals will you need for this initiative?
- 3. Who will use the output of this initiative?

B. Conduct stakeholder analysis

Potential Stakeholders	What they'll need from roadmap	How they contribute to roadmap

Exercise #8: Uncover Your Themes (+1 hour)

Step 1: Select the method(s) you'd like to use to explore your roadmap themes & subthemes.

Approach	Selection
Journey Mapping	
Opportunity-Solution Tree	

Step 2: Use the links below for details to get the necessary templates & instructions.

[Atlassian playbook: Customer journey mapping](https://www.atlassian.com/team-playbook/plays/customer-journey-mapping) (90 mins)

<https://www.atlassian.com/team-playbook/plays/customer-journey-mapping>

[Miro template: Opportunity-Solution Tree](https://miro.com/templates/opportunity-solution-tree/) (60 mins)

<https://miro.com/templates/opportunity-solution-tree/>

Exercise #9: Build Out Your Alignment Board (30 minutes)

	Stakeholder 1	Stakeholder 2	Stakeholder 3
Goals:			
- What are their desired outcomes for the next 3 months?			
- Why do they have those objectives?			
- What metrics are they using to achieve those outcomes?			
Reality: - What's currently on their plate?			
Options: - What do they think needs to be on the roadmap?			
Way forward: - Which of the product priorities for the next 3 months are they in agreement with?			

Exercise #10: Tracking Changes To Your Roadmap (30 minutes)

1. *Incorporate change tracking into your roadmap, ensuring that your tracking answers the questions of “what, why & when” of updates.*
